Items supplied

1 Bluetooth speaker
 1 USB charger cable (Type A on Micro USB) 1
 1 3.5 mm stereo jack cable 2
 1 Operating instructions

Establish a Bluetooth connection

NOTES:

- The identification of the device is "SBL 4.1 A1".
- After turning it on, the device automatically tries to reconnect to the last paired device or to establish a new connection.
- Please observe that the establishment process of the connection may vary slightly depending on the device and the software used.
- The device switches off if no Bluetooth connection can be established within 10 minutes.

WARNING! Risk of material damage

- If you notice any irregularities (e.g. unusual noises, strange smells or smoke developing) turn the device off immediately. Do not use the device any longer.

• The device switches off if no Bluetooth connection can be established within 10 minutes.

• If the device has switched off automatically, first switch it off by means of the switch OFF/ON 11 before being able to switch it back on again.

• With moderate volume settings, the device may be used for a period of approx. 10 hours while the Bluetooth connection is established.

Operation

Functions of the buttons

• Protect the device against damage, e.g. from:

- drips and splashes of water
- heat, direct sun radiation and open flames (e.g. candles)
- impacts and similar violent effects

• Protect the cable against damage, e.g. from:

- sharp edges
- hot places
- clamping or crushing

• Do not use any astringent or abrasive cleaning agents.

• To avoid any risk, do not make modifications to the device. Repairs must be carried out by a specialist workshop or the Service Centre.
